

## Wally Drive Hike Wasaga Beach – 3.5 km

This is an easy trail oscillating in the sand dunes of Wasaga Beach.

Enter the trail just 100 m west of the cul-de-sac on Wally Drive.

This area has a poor map and trail markage, and there are lots of trail intersecting throughout the forest. The initial trail has white blazes, but at the 1<sup>st</sup> turn all blazes seem to disappear.

I have provided a map of the route we choose and we came out of the forest without getting lost and no map. This required a bunch of decisions where the trails intersected. We choose: left, left, right, left, left, right, left.
